

AMAN KATIYAR

Software Engineer / Python (Django), React.js/Next.js REST APIs / 2+ Years Experience

Email: amankatiyar.tech01@gmail.com Mobile: +91 6387343245 Location: Lucknow, UP, India

Website: aman.ktry.in LinkedIn: [amanktyr](https://www.linkedin.com/in/amanktyr) GitHub: [amanktyr](https://github.com/amanktyr)

PROFILE SUMMARY: Full-Stack Web Developer specializing in Python and Django, with experience building production-ready web applications including SaaS platforms, e-commerce systems, and business management tools. Skilled in REST API development, database design (PostgreSQL/MySQL), and modern frontend frameworks like Next.js and Tailwind CSS. Experienced in deploying scalable applications on VPS and cloud platforms with a focus on performance, security, and clean architecture.

EDUCATION

- BTech in Computer Science & Engineering** | Abdul Kalam Technical University, Lucknow / 2022-25
- Diploma in Computer Science & Engineering** | Jawaharlal Nehru Polytechnic, Sitapur (BTEUP) / 2019-22

SKILLS

- Languages:** Python, JavaScript, SQL
- Frameworks & Libraries:** Django, Flask, Next.js, React.js
- Databases:** PostgreSQL, MySQL, SQLite
- Core Concepts:** Data Structures & Algorithms (Basic), OOP, DBMS, OS (Basics)
- Backend & APIs:** REST API Development, Authentication (OAuth), API Integration
- Frontend:** HTML5, CSS3, Responsive Design, Tailwind CSS (Basic)
- Additional Expertise:** AI Powered Web development, Authentication (OAuth) API Integration, UI/UX Design, Deployment (VM2, VPS, cPanel), Version Control (Git), SEO Basic.

WORK EXPERIENCE

Full-Stack Web Developer | Bhatt Square Pvt. Ltd. | [Oct 2025– Present]

- Developing and maintaining scalable web applications using Python (Django) and modern web technologies.
- Designing secure backend systems and REST APIs for business-focused applications.
- Optimizing database performance and improving application reliability for production environments.

Full-Stack Web Developer | Sipher Web Pvt. Ltd. | 1+ Years | Aug 2024 to Oct 2025

- Developed scalable and secure web applications using Django and React.js for diverse client needs.
- Built optimized RESTful APIs improving performance, scalability, and data handling efficiency.
- Enhanced application security and reliability while maintaining smooth delivery of real-time projects.

Apprenticeship Training | Softpro India Computer Technologies (P) Ltd. | 6 Months | Jun 2021 to Apr 2022

- Worked on SPI Reporting Portal using PHP and MySQL to manage automated reporting modules.
- Designed responsive and cross-browser UIs with HTML, CSS, and Bootstrap for better usability.
- Implemented backend features and optimized queries to streamline dynamic data reporting tasks.

Summer Training | Softpro India Computer Technologies (P) Ltd. | 2 Months | June – Aug 2021

- Built an E-Banking Web Application using Django and MySQL with secure authentication system.
- Designed responsive, user-friendly, and interactive UI with HTML and CSS for smooth experience.

PROJECTS

- FitStack – Gym Management Software** (Django, Bootstrap, PostgreSQL): ([Live Link](#)) —Developed a full-stack gym management SaaS platform to streamline memberships, billing, attendance tracking, trainer management, and administrative workflows using Django-based architecture. Implemented authentication, role-based access control, and optimized database queries for performance.
- LoveNest – Private Space for Couples** (Django, Next.js, PostgreSQL, Socket.IO): ([Live Link](#)) —Developed a secure full-stack web application for couples to privately connect, share memories, and manage important events. Integrated real-time chat functionality using Socket.IO, enabling instant messaging and live updates. Implemented user authentication, personalized dashboards, and RESTful APIs with a strong focus on data privacy and scalable architecture.
- Gurukul Setu – School Management System** (BTech Project / (Django): ([GitHub Repo](#)) — Developed a **SaaS-based academic management platform** with features like attendance tracking, exam results, authentication, and admin dashboard. Designed for **multi-user access and scalability** to support multiple institutions.
- Library Management System** (Django, MySQL): ([GitHub repo](#)) — Developed **admin panel, authentication, and reporting features** for efficient book & student management.
- Ace Dev Blog** (Academic Project / PHP, MySQL – GitHub): ([GitHub repo](#)) — Built a **blogging platform for programmers** with publish/read features and authentication, fostering a **community for knowledge sharing**.
- More Projects** – [click here](#)

EXTRA-CURRICULAR ACTIVITIES

- Published Author:** Wrote and published an E-book “Space Math” on **Amazon Kindle**. ([Link](#))
- NASA Recognition:** Built a **JWST (James Webb Space Telescope) model** that was showcased on **NASA’s official website and Flickr**. ([Link](#))
